

Whereas Governor Inslee has required all government employees, all healthcare workers, and all school employees and volunteers to get vaccinated against COVID19;

Whereas Governor Inslee does not consider natural immunity a legitimate reason to deny the COVID19 vaccine, despite natural immunity being superior to the vaccine;

Whereas it has been shown that the COVID19 vaccine is a leaky vaccine and does not stop the spread of the virus;

Whereas only 335 children ages 17 and under, with other serious health conditions, have died of COVID19 nation wide, and thus have nearly no risk of death or injury from COVID19, and said risk is lower than the flu;

Whereas the risk of injury or death from COVID19 for people under the age of 55 is low;

Whereas the risk of death or injury is found mostly in those who have underlying comorbidities;

Whereas, “[a]vailable data on COMIRNATY [the Pfizer vaccine] administered to pregnant women are insufficient to inform vaccine-associated risks in pregnancy,” (FDA package insert for COMIRNATY, BioNTech Manufacturing GmbH in partnership with Pfizer, August 2021, <https://www.fda.gov/vaccines-blood-biologics/comirnaty>, <https://www.fda.gov/media/151707/download>, accessed 8/25/2021 at 9:30 AM PDT), and pregnancy has always been a reason to delay or deny vaccine or other medical intervention;

Whereas the FDA has acknowledged that “the FDCA will not be sufficient to assess known serious risks of myocarditis and pericarditis and identify an unexpected serious risk of subclinical myocarditis.” (U.S. Food & Drug Administration Approval Letter, BL 125742/0, dated August 23, 2021, 6, <https://www.fda.gov/media/151710/download>, accessed 8/25/2021 at 9:30 AM PDT).

Whereas, as Americans, under the Ninth and Fourteenth Amendments we have a fundamental right to bodily integrity;

Whereas the risk of the COVID19 vaccine is not definitively known, but is definitely not zero, and is ordered to be under continued study, particularly as it relates to myocarditis and pericarditis, pregnancy, lactation, and children (See U.S. Food & Drug Administration Approval Letter, BL 125742/0, dated August 23, 2021, 4-11, <https://www.fda.gov/media/151710/download>, accessed 8/25/2021 at 9:30 AM PDT);

Whereas the elderly and those with comorbidities can get a COVID19 vaccine in consultation with their doctors and based on their individual risk assessment;

Whereas the requirement for everyone, regardless of risk, to get a COVID19 vaccine is not narrowly tailored to protect the at risk elderly and those with known comorbidities such as obesity;

Whereas, since February 29, 2020, Governor Inslee has usurped the power of legislature and continues to usurp the power of the legislature;

Whereas dissenters have been silenced on social media and through social pressure;

Whereas neither the government, the vaccine makers, nor the distributors are liable for vaccine injuries;

Whereas the COVID19 vaccination has caused many severe, life threatening or life altering injuries, including neurological injuries, heart inflammation (both myocarditis and pericarditis) in healthy young people, and severe allergic reactions;

Whereas pregnant women are required to get the vaccine at the risk to both themselves and their child despite no ability to confirm its safety or efficacy for either.

Now, therefore, we the Republican Party of Clark County, Washington, do declare the following:

1. Call on Jay Inslee to recall his proclamation on vaccine mandates;
2. That the Republican Party of Clark County supports the recall of Governor Jay Inslee; and
3. That the Republican Party of Clark County ask all legislators in the state to call for a special session of the legislature to put an end to this unconstitutional vaccine mandate: and
4. That the Republican Party of Clark County calls on all elected officials & candidates for office within Clark County to vigilantly speak & act to end Inslee's discriminatory Covid Vaccine & Mask orders. In particular, the Clark County Council acting as the Board of Health, having a Republican majority, must offer & pass immediately to BAN ALL MANDATES OR ORDERS WHICH FACILITATES DISCRIMINATION AMONG OUR CITIZENRY, WHICH INCLUDES COVID MASK OR VACCINE MANDATES OR ORDERS.
